EXPERIENCE

Capital One | Senior Product Designer

July 2021 – Present

Discover Bank Product Integration

- Designing customer experiences supporting Capital One's acquisition of Discover, the retail bank's #1 priority among the top five 2026 initiatives.

CD Account Management

- Enhanced the CD management page, retaining 81.2% of deposits (\$23.5B) by converting customers from a limited-time offer.
- Led a UX redesign of the CD grace period experience, reducing customer service calls by 20% and improving retention by 2% while influencing the roadmap for future enhancements.

Automatic Savings

- Launched a savings goals feature to build customer financial resilience, owning the end-to-end process from wireframe to user research to tech handoff while collaborating with business stakeholders to define KPIs and drive product decisions.
- Expanded savings tools to 100% availability, driving a 486% increase in enrollment and enabling customers to save \$20.6M from their paychecks in one month.
- Delivered a savings tool with ~15k active users, making Capital One the first top-10 bank to introduce a savings feature powered by machine learning.

Credit Card Acquisitions

- Optimized the end-to-end shopping journey to help customers find the right credit card.
- Scaled a card-matching quiz to web platforms, increasing application rates by 14%, approval rates by 42%, and new accounts booked by 6%.
- Redesigned the credit card compare page (the third most visited page on CapitalOne.com), increasing application rates by 19% and new accounts booked by 7%, while creating consistency with the small business and retail bank sites.

DALI Lab | Designer, Developer & Project Manager

Sept 2019 – June 2021

- Led a cross-functional team of designers and developers to create an educational VR tool used in biology classrooms, museums, and later published in the Meta App Store.
- Spearheaded user experience and gameplay design with proof-of-concept prototypes.
- Ran weekly standups, defined project direction, and collaborated with partners to ship new iterations every 10 weeks.

SILVR: Social Interaction Lab VR | Designer & Developer

July 2020 – June 2021

- Contributed to a persistent multi-user testbed for researching social interactions in XR, funded by Facebook Reality Labs.
- Designed and developed the first-time user experience, realistic physical interactions, and a pathfinding system using Maya, Unity, and the Oculus SDK.

Dartmouth College | Teaching Assistant

July 2020 – Mar 2021

AR/VR Design & Development

- Wrote tutorials and lab assignments introducing AR/VR basics in Maya and Unity.
- Guided students in creating XR experiences through office hours and one-on-one support.

3D Computer Animation

- Taught animation principles and best practices in Autodesk Maya.
- Supported students through lab assignments and office hours.

EDUCATION

Dartmouth College

GPA: 3.69 / 4.0

B.A. Cognitive Science focused in Human-Computer Interaction

Minors Human-Centered Design & Digital Arts

Citation of Academic Excellence

Projects in Digital Arts

AR/VR Design
